## Work experience

### **2020 - Present**

Student at Code Institute.

Studying to become a full stack software developer.

### **Alfa laval 2018 - 2020**

For two years I was employed by Alfa Laval. My tasks were to assemble, package outgoing goods, truck driving and do smaller programming tasks.

In addition to that, I was involved with the Green Belt project for Business needs to optimization of the supply chain.

### **Apotek1 and H&M, Norway, 2015 - 2018**

For two years I was employed by Apotek1 as a warehouse worker. Tasks included pick, pack, refill and truck driving. I was also responsible for picking and packaging for various departments. For six months I worked at Hennes & Mauritz as a warehouse worker. Tasks included packaging as well as truck driving and planning of outgoing goods.

### **Valla sandblästring, 2009-2015**

For six years I was employed full time as an industrial painter and blaster. Tasks included planning, blasting, painting, packaging of goods and manage customers. I was the safety representative at the company.
